

Bose Speaker Connection diagram 2014

¼" cable to connect speakers

*Tech Tips

- Check Microphone switch (green light means go)
- Start with the volume low and turn up slowly when testing the microphone
- Make sure person talking is behind the speakers to avoid squeal (feedback)
- Leave 2nd speaker at 12 o'clock (line straight up)
- Unit is on when blue light lights up
- If you see a red light, turn down volume slightly until red light turns off
