

## Bose S1 Pro Setup Instructions

1. Place mic receiver atop speaker (under bungee cord) and connect to mixer input
2. Plug in power supply from speaker to mic receiver
3. Switch to mic setting
4. Turn all volume knobs down, and flip switch to power on speaker (I)
5. Connect media device via 1/8" aux or Bluetooth

### User tips:

- Do not use mic in front of the speaker
- Use device to control volume when connected via Bluetooth. Have speaker volume between  $\frac{1}{2}$  and  $\frac{3}{4}$
- If connecting two speakers, use a  $\frac{1}{4}$  TRS cable from "Line Out" into the input of the additional speaker. Switch "off" the Tonematch in the other speaker.
